PROFESSIONAL GOALS

Recently embarking on a career change in TESOL instruction, I am specialised in writing, reading and grammar, although am able to teach all skills and levels. My experience to date is in online tuition, and I welcome the opportunity to work face-to-face now that the world has opened up again and travel is a possibility. I have a long history in the music and entertainment industry, thus have professional skills in people management and event management, and am a self-starter, operating several small businesses.

PERSONAL QUALITIES

I am a self-disciplined, well organised and committed person, who brings professionalism, enthusiasm and commitment to any position that I undertake. I work well with people in team environments showing my honest, ethical and reliable qualities.

My extensive experience has earned proven respect for my natural abilities to take on projects where my responsibilities for planning and execution may involve selecting, supervising and supporting people in their given roles. That said, I also work well in positions where I am under supervision. In these, I am conscientious and can take direction, ensuring tasks are carried out professionally.

I apply myself in a genuine manner, always taking pride in a job well done!

TERTIARY EDUCATION
